Multiple hairstyles with extra care

Philips Air Styler Advanced for the easy hair styles every day. The warm air is evenly distributed throughout the brush, while Ionic care helps your hair to shine more.

Easy to use

- Cool air setting for gentle drying

Beautifully styled hair

- 5 attachments
- Three flexible heat and speed settings for easy control
- Paddle straightening brush for naturally straight look
- 38 mm ThermoBrush for smooth styles and waves
- 30 mm retractable bristle brush for defined waves
- Narrow concentrator for focused airflow
- Volumiser for more volume at the roots

Less Hair Damage

- Less overheating with Even Heat Distribution technology
- Ceramic coated brushes for more care
- More Care with ion conditioning for shiny, frizz-free hair
- ThermoProtect temperature setting

Highlights

Ionic Care

Ionic conditioning enables anti-static drying. Charged negative ions eliminate static hair, condition the hair and smooth down the hair cuticles to intensify the hair's shine and glossiness. The result is smooth and frizz-free hair that shines beautifully.

Even Heat Distribution

The Even Heat Distribution technology provides maximum protection for your hair from overheating and thus helps to keep it looking healthy and shiny.

Variety of styles and volume

This Air Styler features 5 attachments to create different styles - from a naturally straight look, to defined waves and volume at the roots.

Ceramic coated brushes

The brushes have a ceramic coating, to prevent overdrying. It helps spread the heat more evenly and avoids hot spots on the hair, which lead to overheating and overdrying of the hair.

ThermoProtect temperature

The ThermoProtect temperature setting provides the optimal drying temperature and gives additional protection from overheating

the hair. With the same powerful airflow, you will get the best results while caring for your hair.

Three flexible settings

The speed and heat required can be easily adjusted to create the perfect result. Three flexible settings ensure precise and tailored styling.

Cool air setting

The Cool air setting uses low heat to gently dry your hair. It works especially well with fine, dry or damaged hair.

Paddle straightening brush

The paddle-shaped straightening brush is designed to help you create a naturally straight look in one go.

38 mm ThermoBrush

The ThermoBrush has an extra-wide diameter of 38 mm. The width of the barrel makes it the perfect styling tool for creating smooth styles and waves.

Retractable bristle brush

The 30 mm brush with retractable bristles is designed for easy styling. Turn the tip of the brush and slide it out for defined waves.

Narrow concentrator

Use the narrow concentrator for focused airflow for precise styling or touch-ups.

Volumiser

Create volume at the roots with a specially designed volumiser attachment.

Specifications

Attachments
