Natural oils + Vitamin E

Premium styling performance

Hair becomes softer and stays
strong*

HP8383/01

Beautifully straight. Feels wonderfully nourished. Reinventing straightening with infusion covers

Straighten and protect your hair in one go, leaving it feeling wonderfully nourished. Nutri wonder comes with replaceable plate covers, proven to release nutrient-rich ingredients – Argan oil, Camellia oil, Avocado oil and Vitamin E – onto your hair as you straighten.

Ease of use

- Swivel cord to prevent tangled wires
- Instant heat-up in just 15 sec
- Easy cover-release buttons on the side of the straightener
- Safe storage of the product with soft heat-protection cap

Beautifully styled hair

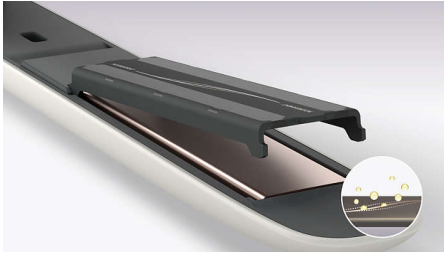

- You can choose to style your hair with or without covers
- Up to 200°C for perfect results
- Extra care and control with 3 temperature settings

Care and protect

- ActiveRelease technology – scientifically proven
- Heat protection so your hair can stay strong
- Ceramic coating for smooth gliding and damage prevention
- The power of natural ingredients
- Replace the covers every month for the best results

Highlights

ActiveRelease technology

Philips Nutri wonder plate covers feature ActiveRelease technology – a cutting-edge innovation, five years in the making. Each plate cover is made of a special blend of advanced polymers and powerful natural oils with Vitamin E. The ingredients are preserved inside the plate covers and, using the straighteners' heat, they are gradually released onto the hair to nourish it, giving you cashmere-soft and radiant finish*.

Natural ingredients

Nutri wonder brings together a lightweight blend of ingredients used for centuries by women around the globe. The formula has been carefully crafted to suit all hair types. CAMELLIA OIL is a great source of Omega 3, 8 and 9. It's traditionally used for protection and miniaturisation of hair. ARGAN OIL is a powerful mix of Vitamins E and F and other vital nutrients. It's well known for its antioxidant and nourishing properties. AVOCADO OIL is rich in Vitamins A, D and E and proteins. It is famous for its nourishing and moisturising effect on hair.

Heat protection

Nutri wonder straightens with the utmost care. The oil-releasing plate covers shield your hair from direct heat so your hair can stay strong. They have smooth surfaces to minimise friction and protect the health of your hair. When the plate covers are placed correctly the "Care" sign will appear on the display to signal that the straightener is ready to nourish, protect and straighten your hair.

Replace the covers every month

Each set of plate covers lasts one month with average use, which is 10 straightening sessions. When the delicate flowery aroma and decorative design on top of the plates fades, it's time for new ones.

Variable Temperature Control

The temperature setting allows you to adjust the styling temperature to suit your hair type. Choose low for thin hair, medium for normal hair and high for thick hair.

Up to 200°C

High temperature enables you to change the shape of your hair and get the perfect style you want.

15 sec heat-up time

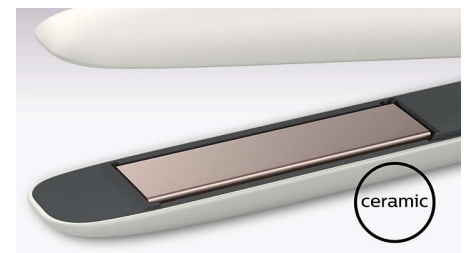

No more long waits for your straightener to be ready. Nutri wonder heats up in just 15 seconds.

Straighten with/without cover

You can choose to style your hair with or without covers, thanks to floating ceramic plates.

Ceramic plates

The smooth ceramic-coated plates prevent damage to your hair during styling with smooth gliding.

Specifications

Accessories

2 FREE plate covers included
Soft heat protection cap

Technical specifications

Cord length: 1.8 m
Heater type: High-performance heater
Plate size: 22.5 x 90 mm
