Minimise irritation, personalise your shave

Effective for 89% of users with highly irritable skin*

The new Philips smart shaver series 7000 is co-developed with dermatologists and offers a personalised plan to reduce skin irritation, even for the most sensitive skin. Because everyone's skin is different.

Easy to use

- Click-on styler and brush for trimming and facial cleansing
- 50 minutes of cordless shaving
- 1 hour charging time
- Comes with a 2 year guarantee

Designed to reduce skin irritation

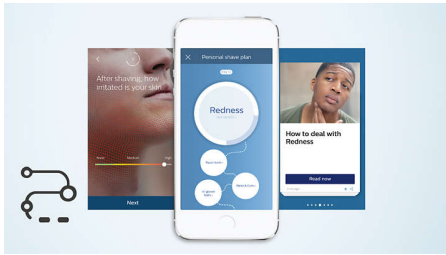

- A plan that tackles your personal skin issues
- SmartSensor Technology perfects your shaving technique
- Sensitive shave settings customised for your skin
- Aquatec gives you a comfortable dry or refreshing wet shave

A close and smooth shave

- SkinGlide rings with anti-friction coating for smooth glide
- Blades protect skin and cut close even with three-day stubble
- 5-direction flex heads follow contours with less pressure

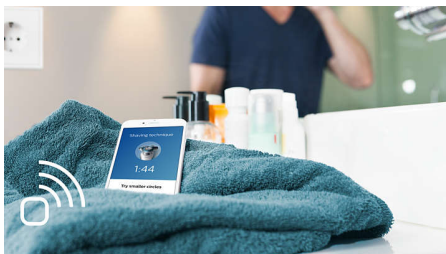

Highlights

Personal shave plan

Create a personal shave plan to tackle your specific skin issues: redness, burning, ingrown hairs or dry skin. As your skin improves, your plan will adapt to give you updated advice.

SmartSensor Technology

Track your technique in real time and get tips to perfect your shaving. An accelerometer tracks your shaving moves and communicates with the app via Bluetooth® to give you immediate feedback.

Sensitive shave settings

Shave with the recommended speed setting, customised for your skin, or choose your own. Options include normal, sensitive and extra-sensitive.

SkinGlide rings

Experience a more comfortable shave with anti-friction SkinGlide rings coated with micro-spheres. Thousands of tiny glass-like rounded spheres reduce friction and surface resistance between the shaver and the skin. This gives the shaver a smooth, easy glide and helps protect against skin irritation.

GentlePrecision PRO blades

Our updated cutting system has skin protection technology, designed to only cut hair not skin. V-shaped blades guide the skin away from the blades for a close, smooth shave — even on three-day stubble.

5-direction Dynamic Flex Heads

Our shaver heads flex easily in five directions, gently following all the contours of the face and neck. Less pressure is needed to shave closely and skin stress is minimised.

Aquatec Wet & Dry

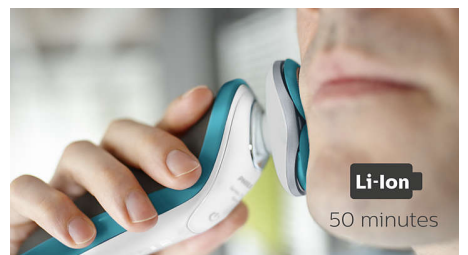

Adapt your shave routine to your needs. With the Aquatec Wet & Dry, you can go for a comfortable dry shave or a refreshing wet shave. You can shave with gel or foam, even under the shower.

Accessories

Click-on beard styler has 5 length settings for beard styling, perfect stubble and pre-trimming. The cleansing brush is designed for deep, gentle cleansing together with your choice of cleanser. We recommend using the brush before shaving to enhance your shaving results: 91% of subjects experienced less skin irritation when shaving with Philips S7000 with cleansing brush*.

50 minutes of cordless shaving

The energy-efficient, powerful lithium-ion battery system gives you two convenient options: Charge it for an hour for up to 50 minutes of shaving time, or a quick charge for one full shave. All Shaver series 7000 models are designed to operate only in cordless mode to ensure safety in wet environments.

Specifications

Accessories

SmartClick: Beard styler, Deep facial cleansing brush
