- Coolshot to seal in shine and fix your style

Less Hair Damage

- Ceramic element to smooth your hair
- Ion conditioning for shiny, frizz-free hair

Highlights

Professional 2300 W

Professional 2300 W for great styling results

6 flexible settings

6 flexible speed and temperature settings

Ion conditioning

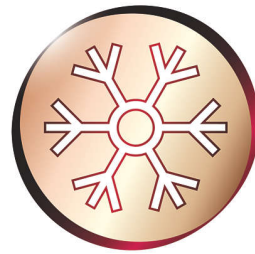

Ion conditioning for shiny, frizz-free hair

Ceramic element

The ceramic element prevents overdrying. It issues infrared heat, which has a gentle warmth which helps dries your hair from within and protects it from overdrying, without compromising on speed and effectiveness.

Coolshot

Coolshot to seal in shine and fix your style

Volume diffuser

The volume diffuser dries hair healthily, reduces frizz and increases volume by spreading the airflow across the hair. It adds lift and maximises volume, especially when used on the crown and root area, making it perfect for creating curls and bouncy styles

Easy storage hook

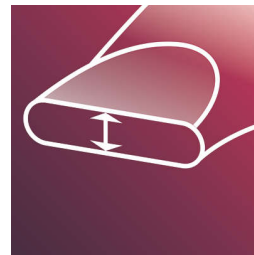

Easy storage hook

2.5 m cord

The longer length results in improved flexibility and ease of handling, so you can use it anywhere you want.

Narrow concentrator

The concentrator works by focusing the flow of air through the opening onto specific areas. This results in precise styling and is great for touch-ups or to finish a style.

Removable air inlet grill

The air inlet grill of this hairdryer can be removed for cleaning. Remove and clean regularly to prevent build-up.
