- Personalise your shave

Premium experience

- One-touch open for easy cleaning
- Choose a convenient dry or refreshing wet shave
- Digital display with intuitive icons for convenience & ease
- Fully charge your shaver in one hour
- Convenient wireless charging
- Click-on beard styler with 5 length settings
- Keeping everything organised and protected
- Click-on nose trimmer for nose and ear hair

Our closest electric shave

Shaver S9000 Prestige

Wet and dry electric shaver, Series 9000

SP9871/22

Highlights

Hydro SkinGlide coating

Our best protective coating lies between the shaver heads and your skin. Made of up to 500,000 hydrophilic microtech beads per square centimetre, creating a 50%* smoother glide for maximum skin comfort.

Ultraflex Suspension system

Fully flexible heads completely adapt to every contour of your face, catching even difficult hairs. The result is an exceptionally smooth and comfortable shave.

Top-spin digital motor

Maximum rotations for maximum efficiency. The most advanced Philips digital motor ensures a precise shave for any facial contour or hair density.

Power Adapt sensor

The electric shaver has an intelligent facial-hair sensor that reads hair density 500 times per second. The technology auto-adapts the cutting power for an effortless and gentle shave.

Personal Comfort settings

Adjust the speed of your shaver and personalise your shaving routine to your own skin and preferences.

Wireless Qi charging pad

Plugging in cords in wet areas is a thing of the past. Simply lay your cordless electric shaver on the Qi charging pad for a wireless charge.

Shave wet or dry

A wet and dry shaver that adapts to your preference. Choose a convenient dry shave, or pair with your favourite foam or gel for a refreshing wet shave.

Premium pouch

The S9000 Prestige Shaver comes neatly packed in a premium storage pouch, which also fits your accessories. Ideal for travel or keeping it safe when it's not in use.

One-touch open

Clean your electric shaver with the touch of a button. Simply flip open the shaver head and rinse with water.
