

# PHILIPS

Beard trimmer

Beardtrimmer series  
3000

PowerAdapt Sensor

Titanium-coated Blades

90 min cordless use/1h charge

Lift & Trim system

BT3241/15

## Effortless even trim

Lift & Trim system cuts 30% faster\*

This trimmer with the innovative Lift & Trim system lifts and captures more low-lying hairs for efficient, even trimming results. This way you will easily achieve the 3-day stubble, short beard or long beard look you want.

### Easy to use

- Longer lasting battery
- Easy to grip
- Store and go
- 90 minutes of cordless use or plug it in
- Simple maintenance
- Lights indicate when battery is low, empty, full or charging
- Adjusts to different length settings

### Easy even trimming

- Trims evenly and captures low-lying hairs
- Skin-friendly blades for smooth skin
- Click-on precision trimmer for perfect edges and details
- PowerAdapt sensor for constant trimming performance
- Superior cutting performance with titanium-coated blades

### Built to last

# Highlights

## PowerAdapt Sensor

The PowerAdapt Sensor checks the hair density of your beard 125 times per second and automatically adapts the motor to maintain constant cutting performance.

## Lift & Trim system

Perfect for stubble, the Philips beard trimmer features our new Lift & Trim system: a comb that lifts and guides the hairs to the level of the blades for an even trim.

## Titanium blades

Get a perfect yet protective trim, time after time. The trimmer's titanium-coated steel blades lightly brush against one another, sharpening themselves as they trim so they stay extra sharp and effective as on day 1.

## DuraPower technology

This beard trimmer uses DuraPower technology to reduce friction on the blades, preserve the motor, and keep your battery going four times longer.

## Skin-friendly blades

Designed to prevent scratches and irritation, the blades have rounded tips for smoother skin contact.

## Precision trimmer

Trim your moustache or define details and edges in hard to reach areas with the click-on precision trimmer.

## Precision Dial - 20 settings

An effective beard trimmer that cuts to the exact length you're after. Just spin the zoom wheel to one of 20 length settings between 0.5 and 10mm in 0.5mm increments.

## 90 min corded/cordless use

Charge your trimmer for 1 hour to get 90 minutes of cordless use or use it plugged in while charging. A 5-minute quick charge delivers one full trim.

## Battery indicators

The battery indicators in this trimmer let you know what your battery status is: Low, empty, charging or full. This way, you can charge your trimmer on time and fully, so you won't end up with an empty battery in the middle of your trim.

## Easy to clean

Detach the head of your Philips beard trimmer and rinse it under the tap for easy cleaning. Then dry it before you put it back on the appliance.

# Specifications
