# Highlights

## Skin contour system

The skin contour system catches and cut hairs of different lengths, without the need for multiple tools or skin contact with sharp edges. The bi-directional trimmers cut longer hairs, which are shaved by the foil for a closer result. The added flexibility of the contour system follows every angle and surface of your body for precisely the look you want.

## Skin-friendly tips and foil

The skin comfort system features a hypoallergenic foil and rounded tips to protect your skin while shaving.

## Integrated trimmer with comb

The integrated trimmer and adjustable comb with 5 length settings are designed to offer more power to cut even the thickest hair. To maintain your desired hair length or get a natural look, adjust the comb to a length between 3 and 11 mm. You can use the shaving system on the other side for a closer result.

## Rechargeable battery power

High-power NiMH battery for full-body use, with 50 minutes of cordless use after a 1-hour charge. The battery light indicates power status when the battery is low or full.

## 100% showerproof

Provides a comfortable and close result in and out of the shower. The body groomer is 100% showerproof, so you can simply rinse it clean when you've finished. For longer hair, trimming performance may be better on dry hair.

## Ergonomic grip

Your body groomer is easy to hold and manoeuvre, with a rubber ergonomic grip to help you keep control while you trim.

## Built to last

All of our grooming products are built to last. They come with a 2-year warranty and they never need to be oiled.
