## Highlights

### Hydro SkinGlide coating

Our best protective coating lies between the shaver heads and your skin. Made of up to 500,000 hydrophilic microtech beads per square centimetre, creating a 50%\* smoother glide for maximum skin comfort.

### Ultraflex Suspension system

Fully flexible heads completely adapt to every contour of your face, catching even difficult hairs. The result is an exceptionally smooth and comfortable shave.

### Top-spin digital motor

Maximum rotations for maximum efficiency. The most advanced Philips digital motor ensures a precise shave for any facial contour or hair density.

### Power Adapt sensor

The electric shaver has an intelligent facial-hair sensor that reads hair density 500 times per second. The technology auto-adapts the cutting power for an effortless and gentle shave.

### Personal Comfort settings

Adjust the speed of your shaver and personalise your shaving routine to your own skin and preferences.

### Wireless Qi charging pad

Plugging in cords in wet areas is a thing of the past. Simply lay your cordless electric shaver on the Qi charging pad for a wireless charge.

### Shave wet or dry

A wet and dry shaver that adapts to your preference. Choose a convenient dry shave, or pair with your favourite foam or gel for a refreshing wet shave.

### Premium pouch

The S9000 Prestige Shaver comes neatly packed in a premium storage pouch, which also fits your accessories. Ideal for travel or keeping it safe when it's not in use.

### One-touch open

Clean your electric shaver with the touch of a button. Simply flip open the shaver head and rinse with water.
