- ThermoProtect

PHILIPS

Highlights

Advanced EHD technology

Advanced Philips EHD technology means that your dryer uses a uniquely designed air outlet to ensure heat is always distributed very evenly - even at high temperatures - and prevents damaging hot spots. This gives ultimate protection to the hair from overheating and thus helps to keep your hair healthy and shiny.

ThermoProtect

As built-in protection for your hair, ThermoProtect retains a constant caring temperature. This allows you to quickly dry your hair without over-drying.

maintaining your hair's natural moisture level for shiny, healthy looking hair.

1600W for gentle drying

This 1600W hairdryer creates the optimum level of airflow and gentle drying power, for beautiful results every day.

6 flexible speed/temp settings

The speed and heat required can be easily adjusted to create the perfect style. Six different settings ensure full control for precise and tailored styling.
