Highlights

Lift & Trim system

Perfect for stubble, the Philips beard trimmer features our new Lift & Trim system: a comb that lifts and guides the hairs to the level of the blades for an even trim.

Self-sharpening blades

The self-sharpening steel blades on the Philips 3000 beard trimmer stay as sharp and effective as on day 1 to deliver a perfect yet protective trim, time after time.

DuraPower technology

This beard trimmer uses DuraPower technology to reduce friction on the blades, preserve the motor, and keep your battery going four times longer.

USB charging

This beard trimmer comes with a USB cable for more flexible charging via your computer or any USB adaptor. The adaptor is not included (recommended adaptor Philips HQ80).

Skin-friendly blades

Designed to prevent scratches and irritation, the blades have rounded tips for smoother skin contact.

Precision Dial - 10 settings

An effective beard trimmer that cuts to the exact length you're after. Just spin the zoom wheel to one of 10 length settings between 0.5 and 10mm in 1mm increments.

45 min cordless use

Don't get tangled up in your stubble trimmer – one 10 hour charge provides up to 45 minutes of grooming time.

Easy to clean

Detach the head of your Philips beard trimmer and rinse it under the tap for easy cleaning. Then dry it before you put it back on the appliance.
