# Highlights

## Unique OneBlade Technology

The Philips OneBlade is a revolutionary new hybrid styler that can trim, shave and create clean lines and edges, on any length of hair. Its dual protection system – a glide coating combined with rounded tips – makes shaving easier and comfortable. Its shaving technology features a fast-moving cutter, which powers through any length of hair.

## Trim away

Unique open comb design for an efficient trim without clogging and interrupting your routine – even on long and thick hair.

## Dual-sided blade

OneBlade follows the contours of your face, allowing you to easily and comfortably shave all areas. Use the dual-sided blade to style your edges and create clean lines by moving the blade in any direction.

## Philips Daily Care app

The free Philips Daily Care app is your ticket to styling and performance. Try on facial hair styles using augmented reality and get step-by-step guidance that includes a handy live beard-line previewer. Know when to switch up a blade or charge up the battery. And get personalised recommendations based on your actual grooming routine.

## Wet and dry

OneBlade is fully waterproof, so it is easy to clean: just rinse it under the tap. You can shave wet or dry and even in the shower – whichever you prefer. No shaving foam needed.

## 60 min Li-Ion battery

Rechargeable Li-ion battery delivers 60 minutes of constant shaving power after a 1 hour charge.

## Innovative 360 Blade

The innovative 360 blade can flex in all directions to adjust to the curves of your face. The design enables constant skin contact and control. So you can easily trim and shave even the most difficult-to-reach areas – to get the job done with fewer passes and greater comfort.

## USB-A charging

Can be charged at home or on the road, perfect for your daily routine and for travel.
