SmartClick precision trimmer

Smooth glide, sensitive shave

Philips' no 1 on sensitive skin*

The Philips AquaTouch protects against the key signs of skin irritation. SkinGlide rings with anti-friction coating enable the shaver to glide effortlessly across your face. Its blades cut close and protect skin, even with 3-day stubble.

Easy to use

- Intuitive display with 1-level battery indicator
- 50 minutes of cordless shaving
- Shaver can be rinsed clean under the tap
- 2-year guarantee, worldwide voltage and replaceable blades

A close and smooth shave

- Blades protect skin and cut close even with 3-day stubble

Designed for maximum skin comfort

- SkinGlide rings with anti-friction coating for smooth glide
- 5 direction flex heads follow contours with less pressure
- Aquatec gives you a comfortable dry or refreshing wet shave

Get the most out of your shaver

- Even-up your mustache and sideburns

S7320/12

PHILIPS

Highlights

SkinGlide rings

Experience a more comfortable shave with anti-friction SkinGlide rings coated with microspheres. Thousands of tiny glass-like rounded spheres reduce friction and surface resistance between the shaver and the skin. This gives the shaver a smooth, easy glide and helps protect against skin irritation.

GentlePrecision PRO blades

Our updated cutting system has skin protection technology, designed to only cut hair not skin. V shaped blades guide the skin away from the blades for a close smooth shave - even on 3-day stubble.

5-direction Dynamic Flex Heads

Our shaver heads flex easily in 5 directions, gently following all the contours of the face and neck. Less pressure is needed to shave closely and skin stress is minimized.

Aquatec Wet & Dry

Adapt your shave routine to your needs. With the Aquatec Wet & Dry, you can go for a comfortable dry shave or a refreshing wet shave. You can shave with gel or foam even under the shower.

1 level battery indicator

The intuitive display shows relevant information, enabling you to get the best performance out of your shaver: 1-level battery indicator - cleaning indicator - battery low indicator - replacement head indicator - travel lock indicator

50 minutes of cordless shaving

The energy-efficient, powerful lithium-ion battery system gives you two convenient options: Charge it for an hour for up to 50 minutes of shaving time, or a quick charge for one full shave. All Shaver series 7000 models are designed to operate only in cordless mode to ensure safety in wet environments.

SmartClick Precision Trimmer

Refine and define your mustache and sideburns with the SmartClick precision trimmer—and complete your look with ease.

Fully washable shaver

Simply open the shaver head to rinse it thoroughly under the tap.

Built to last

All of our shavers come with a 2-year worldwide guarantee and can adapt to any voltage. The long-lasting blades only need to be replaced after 2 years.

Specifications

Accessories
