Radiant, revitalised and refreshed skin

Advanced skin cleansing and skincare

VisaPure Advanced is a home facial cleansing brush that brings professional expertise to your skincare routine. Your skin becomes radiant, refreshed and revitalised. Enjoy clean, soft and revitalised skin with a healthy-looking glow.

Deep gentle cleansing

- Customised DualMotion with Intelligent Head Recognition
- Increases the absorption of your favourite skincare products

Easy to use, easily fits in with your skincare routine

- The heads are easy to clean with warm water and soap
- Perfectly designed for optimal hygiene

Revitalising Massage

- Better blood circulation to reveal radiant, revitalised skin
- It feels like 750 gentle finger taps per minute
- Developed with Japanese massage experts

Highlights

Easy to clean heads

The heads are easy to clean. Simply clean them in the sink with warm water and soap.

Customised DualMotion

VisaPure Advanced is equipped with Customised DualMotion technology. Each head that comes with VisaPure will have specified levels of rotation and vibration. Both the handle and the new attachments are equipped with an innovative NFC tag that enables advanced Intelligent Head Recognition. This means that the handle immediately recognises the specific head once it is put on. This way, you can enjoy dedicated Customised DualMotion technology programmes for different skincare benefits.

Increases absorption of creams

Cleansing with VisaPure means that you remove more make-up residue, dead skin cells and dullness. In fact, it's 10x more effective than

cleansing by hand, but just as gentle! Thanks to the deep cleansing effect, your favourite skincare products such as creams, serums and essences are better absorbed by the skin.

Improves blood circulation

Using the Revitalising Massage head with its Customised DualMotion programme, you will increase blood circulation and bring your skin to life. This brings out its natural radiance, leaving it looking revitalised and with a healthy glow.

Relaxes the muscles

Thanks to the elegant and functional design of the head with its five small balls, it feels like 750 gentle finger tapping movements per minute. The Revitalising Massage programme lasts 3 minutes, and you can enjoy a facial massage several times a week.

Developed with massage experts

The Revitalising massage head has been developed with experts in Japanese facial massage. The dedicated DualMotion programme is inspired by world-renowned massage techniques. The massage technique known as Petrissage is known worldwide to deliver a deep-level massage that stimulates blood circulation and relaxes the muscles, revealing ultimately radiant and revitalised skin.

Designed for optimal hygiene

The silky soft bristle material of all our VisaPure brush heads is a specially chosen, delicate nylon. This helps to ensure the brush heads are super easy to clean and keep fresh.
