# PHILIPS

# Highlights

## Perfect tension control

Perfect tension control gives you the right tension between the ceramic plates and the hair, so you can achieve a beautiful sleek hairstyle that enhances your natural volume.

## Ion Conditioning

Ion Conditioning for shiny, frizz-free hair

## Ceramic plates

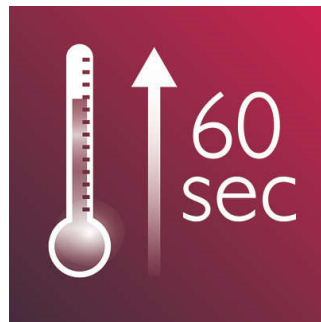

Ceramic plates for smooth gliding and shiny hair

## Digital heat settings

Digital heat settings make it easy to quickly choose the function you need or adjust the styling temperature using the digital display. This enables you to select the perfect temperature for your specific hair and needs. The result is perfect styling at the touch of a button.

## Instant heat up

The straightener has a fast heat-up time, being ready to use in 60 seconds

## Safe usage

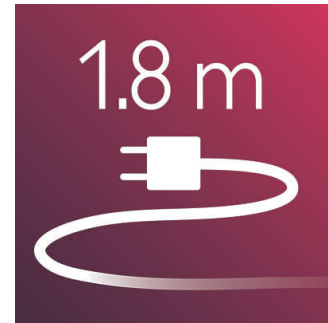

Some hair straighteners and curling irons have been equipped with an automatic shut-off

feature. This feature has been designed to provide peace of mind. If left on, the appliance will automatically switch off after 60 min.

## Swivel cord

Useful swivel cord technology rotates the cord to prevent tangled wires.

## 1.8 m cord

1.8 m power cord

## 200°C professional temperature

This high temperature enables you change the shape of your hair, and gives you that perfect look, as if you've just come from the salon.

## Universal voltage

Worldwide voltage for the perfect travel companion
