## Highlights

### Integrated vacuum system

Trim your beard, mustache and sideburns while keeping tidy with this trimmer. Its powerful vacuum catches cut hair as you go along, giving you a mess-free trim.

### Innovative lift & trim system

Trim your stubble in one quick stroke. Our innovative lift & trim system raises each hair, then guides it toward the double-sharpened stainless steel blades. The result is an even stubble or trim in just one go.

### Double-sharpened blades

Strong steel blades are double-sharpened and made to last a very long time to cut through even thick hair. They sharpen themselves by lightly brushing against each other as you trim.

### 20 lock-in length settings

Cut to the exact length you're after. Just spin the precision dial to one of 20 length settings between 0,5 - 10mm in 0.5mm increments.

### Skin-friendly blades

Get a perfect yet protective trim, time after time. The beard trimmer's steel blades lightly brush against

one another, sharpening themselves as they trim so they stay extra sharp and effective. They also have rounded tips and combs to help prevent skin irritation.

### Corded and cordless use

Charge your beard trimmer for 1 hour to get 60 minutes of cordless use. If you need more energy while trimming, you can simply plug the trimmer into the wall. This trimmer has been designed to run both cordless and plugged in.

### Battery indicators

The battery indicators in this trimmer let you know what your battery status is: Low, empty, charging or full. This way, you can charge your trimmer on time and fully, so you won't end up with an empty battery in the middle of your trim.

### Easy to clean

Detach the head of your Philips beard trimmer and rinse it under the tap for easy cleaning. Then dry it before you put it back on the appliance.

### Built to last

We back this Philips trimmer with a 2-year guarantee: our grooming products are built to last. You'll never need to oil it, and it's compatible with all worldwide voltages.

## Specifications

### Create the look you want

- Number of length settings: 20 integrated length settings
