- Professional AC motor for 50% longer lifetime
- Ultra narrow concentrator for precise styling

Less Hair Damage

- Ceramic element to smooth your hair
- Ion conditioning for shiny, frizz-free hair

Time saving

- New 15% lighter design *

Highlights

Professional AC motor

This type of motor is specially developed for the professional market and has several benefits. Most importantly, it has a longer lifespan than regular motors, which lengthens the lifetime of your hairdryer by 50%. On top of this, it also has an extra-powerful airflow for fast and effective drying.

Six flexible speed and temperature settings

The speed and heat required can be easily adjusted to create the perfect style. Six different settings ensure full control for precise and tailored styling.

Ultra narrow concentrator 15 mm

The concentrator works by directing the flow of air through the ultra-narrow opening on to specific areas. This results in very precise styling and is great for adjusting or finishing a style.

Ceramic element

The ceramic element prevents overdrying. It issues infrared heat, which has a gentle warmth which helps dries your hair from within and protects it from overdrying, without compromising on speed and effectiveness.

Ion conditioning

Give your hair an instant boost with ionic conditioning. Charged negative ions eliminate static, condition the hair and smooth down the

hair cuticles to intensify the hair's shine and glossiness. The result is hair that is beautifully shiny, smooth and frizz-free.

New 15% lighter design *

3 m cord

The longer length results in improved flexibility and ease of handling, so you can use it anywhere you want.

Removable air inlet grill

The air inlet grill of this hairdryer can be removed for cleaning. Remove and clean regularly to prevent build-up.

Soft grip

The soft, non-slip grip is ergonomically designed. It has been tested by professionals for easy handling and salon performance.
