## A light, breathable soother

Extra-large air holes let your baby's skin breathe

Soothe your baby with a soother that lets its skin breathe. The Philips Avent ultra air has extra-large holes to keep skin dry. Its lightweight shield is designed for maximum air flow. Available in various colours and designs.

#### **Keeps your baby's skin soft and dry**

- Lets skin breathe

#### **Sterilise and store in one handy case**

- Sterilise and store in one handy case

#### **Smooth teat for extra comfort**

- Loved by babies worldwide\*
- The ideal texture for a feeling of comfort
- Respects the natural shape of the palate, teeth and gums

# Highlights

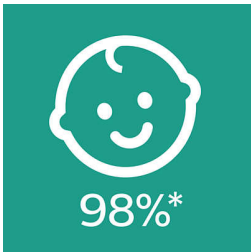

# Specifications

## Easy sterilisation and storage

The ultra air travel case doubles as a steriliser, so all you need to do is add some water and pop it in the microwave. Then rest easy that it's clean for the next use.

## 98% teat acceptance\*

When we asked mothers how their little ones respond to our textured silicone teats, an average of 98% said that their baby accepts the Philips Avent ultra soft and ultra air soothers.

## Extra ventilation

Extra large air holes gently ventilate your baby's skin, keeping it soft and dry.

## Smooth teat

Every detail of the ultra air soother is designed to feel light and comfortable, including the smooth teat.

## Healthy oral development

Look after your little one's oral development with a symmetrical teat that respects the natural shape of the palate, teeth and gums.

## What is included

ultra air soother: 2 pcs

\* 2016–2017 US consumer tests show an average of 98% teat acceptance of the textured Philips Avent teat used in our 0–6 m and 6–18 m ultra air and ultra soft soothers.

\* For hygiene reasons, replace soothers after 4 weeks of use

\* No. 1 global soother brand
