Wet and Dry electric shaver

Shaver series 9000

Pressure Guard sensor

Dual SteelPrecision blades

Dermatologically tested

360 D Flexing heads

S9987/68

Superior closeness*, personalised skin comfort with SkinIQ Technology

The most intelligent shaver powered by A.I gives you incredible skin comfort. Get feedback on shaving pressure to protect your skin, while cutting hair closer, even on 5-day beards. It senses, guides and adapts to your unique face.

A close shave

- Follows the contours of your face
- Advanced precision for a closer shave*
- Smooth gliding for better skin protection

SkinIQ technology

- Helps you to shave with optimal pressure
- Adjusts to your beard for effortless shaving
- Master your technique with the Philips GroomTribe app
- Guides you to an improved technique with fewer passes

For a convenient shave

- OLED display for dynamic SkinIQ and shaver notifications
- Powerful cleaning pod for maintenance and hygiene
- 60 minutes of shaving from a 1 hour charge
- Choose a convenient dry or refreshing wet shave
- Even up your moustache and sideburns

Shaver series 9000

Wet and Dry electric shaver

S9987/68

Highlights

Pressure Guard sensor

Using the right pressure is key for closeness and skin protection. Advanced sensors in the shaver read the pressure you apply, and the innovative light signal shows when you are pressing too hard or too little. For a personalised shave that is just right for you.

Dual SteelPrecision blades

With up to 150.000 cutting actions per minute, the Dual SteelPrecision blades shave close. The 72 high-performance blades are self-sharpening and made in Europe.

Protective SkinGlide coating

A protective coating lies between the shaver heads and your skin. Made of up to 2000 micro-spheres that coat every square millimetre. Minimise irritation by reducing 25% of friction on skin***.

Power Adapt sensor

The intelligent facial-hair sensor reads hair density 500 times per second. The technology auto-adapts cutting power for an effortless and gentle shave.

Motion Control sensor

Motion-sensing technology tracks how you shave and guides you to a more efficient technique via our GroomTribe app. After just three shaves, the majority of men achieved a better shaving technique for fewer passes**.

360 D Flexing heads

Designed to follow the contours of your face, this Philips electric shaver has fully flexible heads that turn 360° for a thorough and comfortable shave.

Advanced OLED display

The first Philips shaver with a dynamic OLED display reveals every shaver feature and notification with sharp, fluid animation. The intuitive interface includes SkinIQ guidance, battery status, cleaning advice and more.

Cable-free Quick Clean Pod

10 x more effective than cleaning with water****, the powerful cleaning pod thoroughly cleans and lubricates your shaver in just 1 minute. Using it helps maintain shaver performance and increase hygiene.

Pop-up trimmer

Refine and define your moustache and sideburns with the pop-up trimmer—and complete your look with ease.

Personalisation via app

Pair your Philips electric shaver to the GroomTribe app and prepare to master your technique. Just track your progress and personalise your routine to achieve a shave that's both close and kind.

Shave wet or dry

A wet and dry shaver that adapts to your preference. Choose a convenient dry shave, or pair with your favourite foam or gel for a refreshing wet shave.

60 minutes of cordless shaving

A shaver for at home or on-the-go. Get 60 minutes of shaving time from a 1 hour charge or plug it in for instant and continuous power.

Beard styler attachment

With the choice of 5 different length settings, the beard styler attachment can create anything from the perfect stubble to a short, neatly trimmed beard. It's also useful for a pre-shave trim.
