- Double-sharpened stainless steel blades for faster trimming
- Lifts and guides hairs for an effortless even trim
- Precision trimmer & comb to finish up in hard to reach areas

Vacuum system

- Guaranteed less mess with integrated vacuum

Highlights

Integrated vacuum system

Trim your beard, mustache and sideburns while keeping tidy with this trimmer. Its powerful vacuum catches cut hair as you go along, giving you a mess-free trim.

Innovative lift & trim system

Trim your stubble in one quick stroke. Our innovative lift & trim system raises each hair, then guides it toward the double-sharpened stainless steel blades. The result is an even stubble or trim in just one go.

Double-sharpened blades

Strong steel blades are double-sharpened and made to last a very long time to cut through even thick hair. They sharpen themselves by lightly brushing against each other as you trim.

20 lock-in length settings

Cut to the exact length you're after. Just spin the precision dial to one of 20 length settings between 0,5 - 10mm in 0.5mm increments.

Corded and cordless use

Charge your beard trimmer for 1 hour to get 80 minutes of cordless use. If you need more energy while trimming, you can simply plug the trimmer into the wall. This trimmer has been designed to run both cordless and plugged in.

3-level battery indicator

See how much power your trimmer has left. The 3-level battery indicator shows when the battery is full, running low, or if it's charging.

Precision trimming

When you are done trimming, just click on this precision trimmer to finish up your style with defining details and edges or trimming your moustache with clicking the precision comb on the trimmer.

Easy to clean

Detach the head of your Philips beard trimmer and rinse it under the tap for easy cleaning. Then dry it before you put it back on the appliance.

Built to last

We back this Philips trimmer with a 2-year guarantee: our grooming products are built to last. You'll never need to oil it, and it's compatible with all worldwide voltages.
