Highlights

21 locking length settings

Two adjustable combs provide length settings from 3 mm to 41 mm, with precisely 2 mm between each length. Or you can use it without a comb for a close 0.5-mm trim.

Battery light

Battery light glows green when full.

Built to last

All of our grooming products are built to last. They come with a 2-year worldwide guarantee and worldwide voltage compatibility, and they never need to be oiled.

Easy to clean

Simply pop the trimmer head open and use the cleaning brush included to sweep away loose hairs.

Follows every curve

The hair clipper gently follows the contours of your head for a fast, even and comfortable haircut.

Powerful cordless

Use it cordless or plugged in. You'll have 45 minutes of cordless power after 8 hours of charging.

Self-sharpening steel blades

The steel blades of the electric shaver lightly brush against each other, so they sharpen themselves as you trim! The blades stay extra-sharp to always cut hairs neatly and effectively, but have rounded tips to protect your skin.
