

A close-up photograph of a man with a well-groomed beard and mustache. He is looking slightly to the side with a calm expression. He is holding a black and silver Philips beard trimmer against his cheek, just below his ear. The trimmer has a textured, perforated silver head. The background is a soft, out-of-focus grey.

Highlights

One pass even trim

Never miss a spot again with the Philips Beardtrimmer Series 5000. Our inbuilt Lift&Trim system picks up low-lying hairs and rounded combs trim at an even length.

40 adjustable length settings

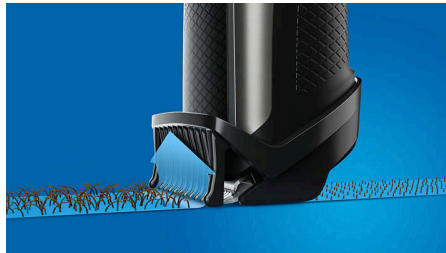

Cut to the exact length you're after with this cordless beard trimmer. Just spin the zoom wheel to one of 40 length settings in 1/128" (0.2mm) increments.

DualCut

Get a fast and even trim with Philips beard trimmer for men, with self-sharpening steel blades and 2x as many blades, thanks to DualCut.

Lift & Trim PRO system

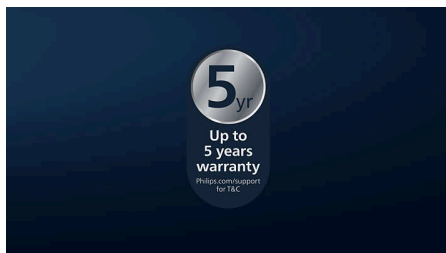

Stubble doesn't stand a chance. The Lift&Trim Pro system captures all your low-lying hairs and lifts them up toward the blades for a precise cut – whilst still being an ideal trimmer for long beards too.

90 min corded/cordless use

Don't get tangled up in your stubble trimmer – a 1 hour charge provides up to 90 minutes of cordless grooming time. Or keep it plugged in for uninterrupted trimming. The 5 minute quick charge function gives you enough power for one trim.

Beard trimmer built to last with no oil required

All of our Beard trimming products* are built to last. They come with a standard global 2 year warranty, including the option to extend up to 5 years** and they never need to be oiled.
