# Highlights

## 21 locking length settings

Two adjustable combs provide length settings from 3mm to 41mm, with precisely 2mm between each length. Or you can use it without a comb for a close 0.5mm trim.

## Battery light

Battery light glows green when full.

## Bonus scissors, comb and case

Includes everything you need for a professional haircut at home. Comb and scissors are included as well as a handy storage case, to keep the hair clipper and accessories safely together.

## Built to last

All of our grooming products are built to last. They come with a 2 year worldwide guarantee, worldwide voltage compatibility, and they never need to be oiled.

## Easy to clean

Simply pop the trimmer head open and use the cleaning brush included to sweep away loose hairs.

## Follows every curve

The hair clipper gently follows the contours of your head for a fast, even and comfortable haircut.

## Powerful cordless

Use it cordless or plugged in. You'll have 45 minutes of cordless power after 8 hours of charging.

## Self-sharpening steel blades

The steel blades of the electric shaver lightly brush against each other, so they sharpen themselves as you trim! The blades stay extra-sharp to always cut hairs neatly and effectively, but have rounded tips to protect your skin.
