## Power

- Charging: 1 hour full charge
- Run time: 60 minutes

## Power

- Battery Type: NiMH

# Highlights

## 20 lock-in length settings

Cut to the exact length you're after. Just spin the precision dial to one of 20 length settings between 0,5 - 10mm in 0.5mm increments.

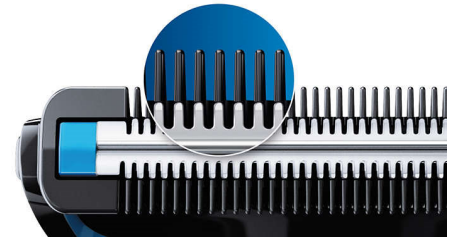

## Corded and cordless use

Charge your beard trimmer for 1 hour to get 60 minutes of cordless use. If you need more energy while trimming, you can simply plug the trimmer into the wall. This trimmer has been designed to run both cordless and plugged in.

## Battery indicators

The battery indicators in this trimmer let you know what your battery status is: Low, empty, charging or full. This way, you can charge your trimmer on time and fully, so you won't end up with an empty battery in the middle of your trim.

## Skin protection system

The unique skin protection system guards even your most sensitive body areas, allowing you to comfortably trim hair as close as 0.5mm without direct contact between the sharp edge of the blades and your skin.

## Bidirectional trimmer and comb

Cut hair that grows in any direction using the bidirectional trimmer and 3mm comb. Pre-trimming is recommended for thicker hair.
