QT4090

Perfect beard and stubble, less mess

The only stubble trimmer with a vacuum system

This powerful vacuum Philips beard trimmer delivers superior trimming performance with our most suction power ever to capture hairs during use. No mess guaranteed.

Best performance that feels great

- Contour-following comb for a precise and even trim

Provides maximum ease of use

- Maintenance-free blades
- Multifunctional display
- Travel Lock
- Vacuum system captures cut hairs for mess-free trimming

Create the look you want

- 18 secured length settings from 1 mm up to 18 mm
- Precision trimmer for easy contouring and touch ups
- Stubble comb designed to trim with more precision

Provides optimal power

- Strong lithium-ion battery for optimal power use
- Turbo power boost button boosts cutting and fan speed

Highlights

18 secured length settings

Select and locks your desired length within a versatile range of possible lengths.

Contour-following comb

Flexing guide comb that follows every curve of your face for an even trim, easily and comfortably.

Maintenance-free blades

The blades stay sharp and need no oiling, so your product is always ready for use.

Multifunctional display

Multifunctional display shows the length setting easily

Powerful Lithium-Ion battery

This product has a powerful lithium-ion battery with quick charge so you can charge the product in only 1 hour and get 50 minutes of use.

Precision trimmer

A useful addition to your beard trimmer to touch up your lines and easy contouring of side burns and neckline.

Travel lock

Travel lock option protects your product against unintentionally switching on when you are carrying it in your bag.

Turbo power boost button

When greater suction power and increased cutting speed is desired while trimming, simply press the Turbo Power Button.

Integrated vacuum system

The integrated vacuum mechanism absorbs cut-off hairs during use and gives you a cleaner washbasin after use.

Stubble comb

The stubble comb has been designed to increase visibility during trimming as there are no frontal teeth. Moreover, fine contours are possible by applying the tip of the trimmer at different angles on the skin. This allows for greater control with each individual hair length. This comb is ideal for a perfect stubble or a 5 o'clock shadow where every detail counts.
