Highlights

Double grooming heads

Now you can confidently trim and shave everywhere below the neck with just one tool. Use the Philips Bodygroom 7000 full body trimmer and shaver to trim with one single attachment for an even result on your back, shoulders, chest, abs, underarm, arms, groin and legs.

Contour following 2D shaver

Thanks to the 2 directional pivoting head, this adjustable body shaver adapts to every contour of your body giving you our closest shave yet.

Integrated, adjustable trimmer

The integrated trimmer with adjustable comb is designed to offer more power to cut even the thickest hair. Achieve a natural look or closer result thanks to a 5 length adjustable comb with trim lengths ranging from 3mm to 11mm.

Skin-friendly body shaver

The shaver head features patented rounded tips and a hypo-allergenic foil to protect your skin from cuts and nicks while shaving.

Dual step shaving

The men's body groomer designed to capture short, long and thick hair in a single stroke. The dual step shaving first trims longer hairs, which are shaved by the foil for a closer result.

Self sharpening blades

The trimmers' steel blades lightly brush against one another, sharpening themselves as they trim so they stay extra sharp and effective. Refresh your foil every year.

Battery indicator

Never let your body groomer run out of power unexpectedly with battery low indicator.

Wet & dry

Your wet and dry body groomer is fully water proof, so you can use it in or out of the shower and clean your groomer easily. For best results, use on dry hair before showering.

Rechargeable battery power 70

High-power rechargeable battery for full body use, with 70 minutes of cordless use. When battery light indicates low power status, you can use the appliance again after an 1-hour charge.
