# Highlights

## Five different cleaning modes

The five modes include a Clean mode for an outstanding clean in two minutes. A Sensitive mode for gentle yet thorough cleaning of the gums. A Refresh mode for those quick one-minute touch-ups. A Massage mode to stimulate the gum and a Gum Care mode that helps improve gum health.

## Naturally whiter teeth

The dynamic sonic action of this toothbrush and the direct broader contact with each tooth, has been proven to remove everyday stains, to help keep teeth naturally whiter.

## Safe and gentle

Philips Sonicare is a gentle electric toothbrush for braces (brush heads wear out sooner when used on braces), and is safe for dental restorations (fillings, crowns, veneers) and periodontal pockets, too.

## Sonic technology

Philips Sonicare electric toothbrush's unique dynamic action gently and effectively reaches deep between teeth and along the gum line.

## Angled brush head neck

The uniquely angled neck of this toothbrush head makes it easier to reach back teeth, removing plaque in those hard-to-reach areas.

## Smartimer

2-minute timer on this Philips Sonicare electric toothbrush helps ensure dental professional recommended brushing time

## Quadpacer

30 seconds interval timer indicates when you have completed each quadrant of your mouth and signals for you to move on, resulting in more consistent cleaning throughout your mouth

## Easy-start programme

Gently increases power over first 14 uses to ease you into the Philips Sonicare electric toothbrush experience

## Improves gum health

This Philips Sonicare electric toothbrush provides optimal cleaning along the gumline for improved gum health in just two weeks. Up to 6 times better plaque removal than a manual toothbrush at the gumline.
