#### **DECT Technology**

- Reassurance with crystal clear sound
- Energy saving ECO max
- Choose the best sound level for your surroundings
- DECT technology guarantees zero interference & 100% privacy
- 5 LED lights to signal sound

# Highlights

## Crystal clear sound

Hear every tiny giggle, gurgle and hic-up with perfect clarity. DECT technology provides high quality, crystal clear sound so you can hear your baby anytime.

## ECO max

Switch on the ECO max to reduce transmission power in the baby room. In the ECO max the units only connect when the baby makes a sound.

## Range 330

Indoor range up to 50 meters\* Outdoor range up to 330 meters\* \* The operating range of the baby monitor varies depending on the surroundings and factors that cause interference.

## Talk back

Sometimes all your baby needs is the soothing sound of your voice. With one click of this essential feature you can connect with your baby from anywhere around the home

## Temperature sensor

The temperature sensor with customized alert allows you to monitor the climate in baby's room. Your baby can't regulate its body temperature as well as you can and a slight change in temperature can make your baby restless. A customized temperature sensor will immediately alert you, through the digital display on the parent unit, if the climate in your baby's room changes.

## Zero interference with DECT

DECT technology guarantees zero interference from any other transmitting product like other baby monitors, cordless phones and cell phones. Data encryption provides a secure and private connection, so you can be sure that you are the only one that can hear your baby.

## Always connected

The parent unit of Philips Avent baby monitor will alert when the power is low or if you are out of range.

## Adjustable sound sensitivity

Enables you to adjust the sound and volume levels, so you can hear every giggle, gurgle and hic-up

## 5 LED lights

Lights are activated to indicate the level of sound in your baby's room. Even when the Parent Unit is muted.

## Docking station

A docking station enables you to conveniently recharge your parent unit.

## Night light and lullabies

Helping your restless baby to drift to sleep with a gentle lullaby and a warm tranquil glow of the night light.

## Operating time 24 hours

The small, rechargeable parent unit will give you the freedom of cordless rearing for up to 24 hours before re-charging is required.

# Specifications
