Highlights

Up to 2x whiter teeth

Click on our DiamondClean brush head to gently yet effectively remove surface stains. Densely packed central stain removal bristles work hard to make your smile 2x whiter in just 7 days.*

Clean and White Mode

2 minutes of Clean mode with an additional 30 seconds of White mode to focus on the visible front teeth. Removes everyday stains, such as coffee, tea, tobacco and red wine. Whitens teeth by 2 shades in just 2 weeks.*

Gentle teeth and gum cleaning

Philips Sonicare toothbrush with Sensitive Mode: Gentle, yet thorough cleaning for sensitive gums

Ease into your new routine

Starting something new can take some getting used to. Our easy-start program gives you the option of a gradual, gentle increase in brushing power with the first 14 uses with your new toothbrush.

Philips Sonicare technology

Powerful sonic vibrations whip up your toothpaste into plaque fighting bubbles, and drive them deep between your teeth and along

your gum line. At the same time your teeth will experience 62,000 gentle but effective brush movements. You'll get a month's worth of manual brushing in just 2 minutes.

Brush with confidence

Whatever your specific needs, you can be sure of a safe brushing experience with HealthyWhite. Our sonic technology is suitable for use with braces, fillings, crowns and veneers, and can even be used in the daily treatment of gum disease.

QuadPacer and Smartimer

It takes just 2 minutes to thoroughly brush your teeth. Our QuadPacer lets you know when you've spent the optimal amount of time on each section of your mouth while our Smartimer signals when your total time is up. Together they help you reach your recommended brushing time, every time.
