 Product Picture

The most reliable connection to your baby

Complete peace of mind whilst your baby sleeps

Our new Avent DECT Baby Monitor gives you the reassurance of feeling close to your baby, even when you are not in the same room. It provides the most reliable connection with improved crystal clear sound*, a soothing night light and lullabies.

Reliable technology

- DECT technology guarantees zero interference and 100% privacy
- Perfect clear sound thanks to DECT Technology

Constant Reassurance and Secure Connection

- Always know when your monitor is in range and connected
- Sound-level lights indicate if the baby makes a noise
- Energy-saving Smart ECO mode

Freedom and flexibility

- Range up to 330 metres*
- Superior operating time up to 24 hours
- Rechargeable parent unit

Comforting and soothing your baby

- Stay connected with talk back
- Calming and soothing

Highlights

Zero interference with DECT

DECT technology guarantees zero interference from any other transmitting products like other baby monitors, cordless phones and mobile phones. Data encryption provides a secure and private connection, so you can be sure that you are the only one that can hear your baby.

Perfect clear sound

Hear every tiny giggle, gurgle and hiccup with perfect clarity. DECT (Digital Enhanced Cordless Telecommunications) technology provides high quality, crystal clear sound so you can hear your baby all the time.

Sound activation 5 LED lights

Lights are activated to indicate the level of sound in your baby's room, even when the Parent Unit is muted.

Always connected

The parent unit will alert you when your monitor is out of range or when the power is low, helping you to make sure that you are always connected to your baby.

330 m Range

Indoor range up to 50 metres*. Outdoor range up to 330 metres*.

Rechargeable parent unit

The rechargeable parent unit enables you to move in and around the home.

Operating time up to 24 hours

The small, rechargeable parent unit will give you the freedom of cordless streaming for up to 24 hours. However, this depends on the type of

batteries used and how often and how long you use the parent unit powered by the batteries.

Calming and soothing

Help soothe your baby to sleep with the warm tranquil glow of the night light and soft lullabies.

Talk back function

Sometimes all your baby needs is the soothing sound of your voice. With one click of this essential feature, you can connect with your baby from anywhere around the home.

Smart ECO mode

The unique Smart ECO mode automatically minimises your transmission power and increases your battery lifetime. The closer you are to your baby, the less power is needed for a perfect connection (not available in US and Canada).
