# Highlights

## Dynamic Beard Guide System

The Dynamic Beard Guide system with the help of the integrated hair lift comb lifts the hairs up to the level of the blades for even trimming results and lets you achieve exactly the 3 day stubble, short beard or long beard look you want.

## Integrated Hair lift comb

Trim your stubble in one quick pass, while being gentle on your skin. Our new Integrated hair lift comb lifts and guides the hairs to the level of the blades for effortless, even trimming.

## Full metal blades

This trimmer comes with twice-sharpened full metal blades that cut more hairs in every pass for faster trimming.

## 17 lock-in length settings

Select your preferred trim length by simply turning the zoom wheel on the handle until the length you want is displayed from 0.4–10 mm with 0.2 mm precision. Your chosen length is now "locked in" for a perfectly even trim.

## Corded and cordless use

60 minutes

Charge your beard trimmer for 1 hour to get 60 minutes of cordless use. If you need more energy while trimming, you can simply plug the trimmer into the wall. This trimmer has been designed to work both cordlessly and while plugged in.

## 100% waterproof

Simply rinse your waterproof beard trimmer under the tap to thoroughly clean it.

## Skin-friendly blades

Get a perfect yet protective trim, time after time. The beard trimmer's steel blades lightly brush against one another, sharpening themselves as they trim so they stay extra sharp and effective. They also have rounded tips and combs to help prevent skin irritation.

## Ideal stubble setting

Keep an ideal 3 day stubble, day after day, by using the trimmer's shortest 0.4 mm setting.

## Ideal angle

The Philips nose trimmer has been engineered so that it is perfectly angled to easily reach hair inside the ear and nose. With the Philips nose trimmer, you can be sure that all unwanted hairs will be removed efficiently.

## ProtecTube technology

With the revolutionary ProtecTube technology, the cutter is protected by an ultra-thin foil guard with rounded tips to prevent skin irritation. In addition, the cutter is designed to prevent hair from getting caught between two separately moving cutting blades, for no pulling, guaranteed.
