- Included: heat resistant pouch
- Digital settings with adjustable heat to get smooth results
- Fast heat-up time, ready to use in 30 sec

Less hair damage

- Gently vibrating plates for optimal styling results
- Gentle temperature setting for touch-ups

Highlights

Keratin ceramic plates

Keratin-infused ceramic plates glide smoothly through your hair, for a shiny look.

Fast heat-up time

The straightener has a fast heat-up time, being ready to use in 30 seconds.

Key-lock function

The plates can be locked together for safe and easy storage.

Gently vibrating plates

Gently vibrating plates spread hair evenly to enhance optimal styling results for all the hair.

Digital temperature settings

Digital display with 12 temperature settings up to 230°C gives you absolute control to adjust temperature to your hair type, for smooth results.

2.5m cord

The professional 2.5m long cord reinforces the ease of use anywhere you want.

Ionic care

Charged negative ions eliminate static, condition the hair and smooth down the hair cuticles to intensify the hair's shine and glossiness. The result is smooth, frizz-free hair with vibrant shine.

Gentle temperature setting

Refresh your style during the day with gentle temperature setting that prevents overheating and cares for your healthy-looking hair.

Included: heat resistant pouch

Included: heat resistant pouch

230°C professional temperature

Professional high temperature enables you to change the style of your hair to achieve the look you want.

Ready to use indicator

This shows when the styler has reached the right temperature, so you can instantly see when you're ready to style.
