Straightener

ProCare

HP8339/00

Perfect style at constant caring temperature

Ultimate hair care. The Philips ProCare straightener protects the hair from overheating, due to its newly developed Dual-Care™ plates, with constant temperature and EHD Technology™

Ease of use

- Automatic shut-off after 60 min
- Closing lock to close the handle for easy and safe storage
- 1.8 m power cord
- Universal voltage
- No more accidental change of settings with key-lock function

Beautifully styled hair

- Ceramic plates for smooth gliding and shiny hair

Less hair damage

- Healthy hair without hotspots with Even Heat Distribution
- Healthier restyling with autoseettings to gentler temperature
- Caring and efficient straightening with constant temperature

PHILIPS

Highlights

Constant temperature

This straightener keeps a more constant temperature. Thanks to its high-performance heater it allows you to straighten your hair at a more caring temperature while getting the exact style you want!

Even Heat Distribution

Advanced Philips EHD+ technology means that your styler will always distribute the heat very evenly - even at high temperatures, and prevents damaging hot spots. This gives added protection and thus helps to keep your hair healthy and shiny.

Style refresh

Automatic setting for healthy restyling. Maintain your style all day, while respecting the quality of your hair

Ceramic plates

Ceramic is microscopically smooth and durable by nature and it is one of the best materials for straightening plates. The plates glide effortlessly through your hair, giving you perfect shiny hair.

Key-lock function

You are always in control. No more accidental switching on/off of the styler or temperature change with the Key-lock function. To unlock, press the button for 3 seconds.

Handle closing lock

The straightener has a closing lock mechanism. Located at the base of the straightener, this locks plates, making storage quick and easy and

helping to protect the straightener from accidental damage.

Safe usage

Some hair straighteners and curling irons have been equipped with an automatic shut-off feature. This feature has been designed to provide peace of mind. If left on, the appliance will automatically switch off after 60 min.

Universal voltage

Worldwide voltage for getting the perfect travel companion

1.8 m cord

1.8 m power cord

Specifications

Technical specifications

- Cord length: 1,8 m
- Voltage: 110-240 V
- Heating time: 15s
