Straightener

ActiveCare

HP8363/03

Maximum shine with maximum protection

Straightener with ceramic plates

The Philips ActiveCare Jojoba straightener protects the hair from overheating, due to its high performance heater. At the same time it gives maximum shine to the hair with natural Jojoba oil infused ceramic plates.

Ease of use

- Closing lock to close the handle for easy and safe storage
- Automatic shut-off after 30 min
- No more accidental change of settings with key-lock function
- Included: Heat resistant pouch
- Instant heat-up within 15 seconds

Beautifully styled hair

- Great results in less time with gentle sonic vibrations
- Maximum shine with Jojoba oil infused ceramic plates

Less hair damage

- Healthy hair without hotspots with Even Heat Distribution
- More care with ion conditioning for shiny, frizz-free hair
- Caring and efficient straightening with constant temperature

Highlights

Auto key-lock function

You are always in control. No more accidental switching on/off of the styler or temperature change with the Key-lock function.

Constant temperature

This straightener keeps a more constant temperature. Thanks to its high-performance heater it allows you to straighten your hair at a more caring temperature while getting the exact style you want!

Even Heat Distribution

Advanced Philips EHD+ technology means that your styler will always distribute the heat very evenly - even at high temperatures, and prevents damaging hot spots. This gives added protection and thus helps to keep your hair healthy and shiny.

Gentle sonic vibrations

Gentle and pleasant vibrations evenly distribute the hair over the plates so that each hair benefits from the care effects

Handle closing lock

The straightener has a closing lock mechanism. Located at the base of the straightener, this locks plates, making storage quick and easy and helping to protect the straightener from accidental damage.

Heat resistant pouch

A practical accessory that lets you store your straightener quickly after usage in the heat-resistant pouch.

Instant heat-up

Instant heat-up within 15 seconds

Ionic Care

Give your hair an instant care with ionic conditioning. Charged negative ions eliminate static, condition the hair and smooth down the hair cuticles to intensify the hair's shine and glossiness. The result is hair that is beautifully shiny, smooth and frizz-free.

Joboba oil ceramic plates

For maximum shine, the ceramic plates have been infused with natural and heat-resistant Jojoba oil. The plates glide effortlessly through your hair, giving you perfect shiny hair.

Safe usage

The automatic shut-off feature has been designed to provide peace of mind. If left on, the straightener will automatically switch off after 30 min.
