- Increases the absorption of your favorite skincare products

Easy to use, easily fits in your skincare routine

- The heads are easy to clean with warm water and soap
- Perfectly designed for optimal hygiene

Revitalizing Massage

- Better blood circulation to reveal radiant, revitalized skin
- It feels like 750 gentle finger taps per minute
- Developed with Japanese massage experts

Fresh Eyes

- Refreshes tired eyes in the morning
- Gentle massage program with 120 nano-vibrations per second

PHILIPS

Home Facial Device

Tailored DualMotion Technology Cleansing, Massage, Fresh eyes, 3 heads, pouch, storage palette, 2 intensity settings

Highlights

Easy to clean heads

The heads are easy to clean. Simply clean them in the sink with warm water and soap.

Customized DualMotion

VisaPure Advanced is equipped with Customized DualMotion technology. Each head that comes with VisaPure will have specified levels of rotation and vibration. Both the handle and the new attachments are equipped with an innovative NFC tag that enables the advanced Intelligent Head Recognition. This means that the handle immediately recognizes the specific head once put on. In this way, you can enjoy dedicated programs of Customized DualMotion technology for different skincare benefits.

Increases absorption of creams

Cleansing with VisaPure means that you remove more make up residue, dead skin cells and dullness. Thanks to the deep cleansing effect, your favorite skincare products such as creams, serums and essences are better absorbed by the skin.

Improves blood circulation

Using the Revitalizing Massage head with its Customized DualMotion program, you will increase the blood circulation and bring life into your skin. This brings out its natural radiance, leaving it looking revitalized and with a healthy glow.

Relaxes the muscles

Thanks to the elegant and functional design of the head with its five small balls, it feels like 750 gentle finger tapping movements per minute. The Revitalizing Massage program lasts 3 minutes, and you can enjoy a facial massage several times a week.

Developed with massage experts

The Revitalizing massage head has been developed with experts in Japanese facial massage. The dedicated program of DualMotion is inspired by worldwide renowned massage techniques. The massage technique called Petrissage is known worldwide to deliver a deep level massage that stimulates blood circulation and relax the

SC5370/10

muscles, revealing ultimately radiant and revitalized skin.

120 Nano-vibrations per second

The customized DualMotion program for Fresh Eyes delivers 120 nano-vibrations per second, for a gentle, comfortable and refreshing massage around the eyes. It is specially designed to be gentle for the thin and delicate skin around the eyes. The Fresh eyes program is a short program of only 30 seconds, so you can quickly use it in your daily morning ritual!

Refreshes tired eyes in 30 sec

The Fresh eyes head is made of a special cool material, with a premium ceramic coating, that gives tired eyes a boost of freshness in the morning.

Designed for optimal hygiene

The silky soft bristle material of all our VisaPure brush heads is a specially chosen, delicate nylon. This helps to ensure the brush heads are super easy to clean and keep fresh.
