Highlights

Contour Detect Technology

The Philips shaver is an electric shaver that delivers our closest shave ever*. Its Contour Detect technology gently follows your facial contours to capture 20% more hairs* in a single pass.

V-Track Precision Blades

Not only do the V-Track Precision Blades give you a super-smooth shave that's 30% closer*, they're also self-sharpening for continued results day after day.

Personal Comfort Settings

Choose between normal or sensitive to create a shaving experience that best suits your skin. If you're in a hurry, select the fast setting to save some time.

Shave Wet or Dry

The wet and dry shaver can be used to your preference. At the sink or in the shower, get a convenient dry shave or pair with your favourite foam or gel for a refreshing wet shave.

SmartClean System

The SmartClean System cleans, lubricates, dries, and charges your Philips shaver at the touch of a button. Keeping it performing at its best, day in and day out.

5 level LED display

You can easily see how much power is left with the 5-level LED display. Your Philips close shaver will not only tell you when it's time to charge, it has indicators for locking, cleaning and replacing the head.

Super Lift & Cut Action

Twin blades of this precision shaver give you a supremely close shave. The first blade lifts the hair, while the second comfortably cuts below skin level, which gives you exceptionally smooth results.

SmartClick Precision Trimmer

Refine and define your mustache and sideburns with the SmartClick precision trimmer—and complete your look with ease.

50 minutes of cordless shaving

Shave longer and more powerfully. With the long-lasting lithium-ion battery, 1-hour is enough time to fully charge your shaver, while the 5-minute power boost is enough for a single shave. It also operates cordlessly for safe use in the shower.
