

Philips Care & control
Straightener

HP8343/00

2x more caring for your hair

Hair straightener with Ionic conditioning

The new Philips Care & Control straightener allows you to get the straight look you want while being gentler on your hair. Hair care with 2x more caring straightening thanks to ionic conditioning and digital temperature control

Ease of use

- Automatic shut-off after 60 min
- Closing lock to close the handle for easy and safe storage
- 1.8 m power cord
- Universal voltage
- Fast heat up time, ready to use in 30 seconds
- Swivel cord to prevent tangled wires
- No more accidental change of settings with key-lock function

Beautifully styled hair

- Ceramic plates for smooth gliding and shiny hair
- 220°C professional high heat for perfect results

Less hair damage

- Digital settings with adjustable heat to get smooth results
- ThermoGuard prevents unintentional heat exposure above 200°C
- More care with ion conditioning for shiny, frizz-free hair

PHILIPS

Highlights

220°C professional temperature

This high temperature enables you change the shape of your hair, and gives you that perfect look you want.

Ionic Care

Give your hair an instant care with ionic conditioning. Charged negative ions eliminate static, condition the hair and smooth down the hair cuticles to intensify the hair's shine and glossiness. The result is hair that is beautifully shiny, smooth and frizz-free.

Ceramic plates

Ceramic is microscopically smooth and durable by nature and it is one of the best materials for straightening plates. The plates glide effortlessly through your hair, giving you perfect shiny hair.

ThermoGuard

Prevent unintentional heat exposure with Thermoguard, by increasing temperature with steps of 5°C only, above 200°C.

Digital settings

Digital settings with adjustable heat to get smooth results with all hairtypes

Instant heat up

The straightener has a fast heat up time, being ready to use in 30 seconds

Auto key-lock function

You are always in control. No more accidental switching on/off of the styler or temperature change with the Key-lock function.

Handle closing lock

The straightener has a closing lock mechanism. Located at the base of the straightener, this locks plates, making storage quick and easy and helping to protect the straightener from accidental damage.

Swivel cord

Useful swivel cord technology rotates the cord to prevent tangled wires.

1.8 m cord

1.8 m power cord

Universal voltage

Worldwide voltage for getting the perfect travel companion

Safe usage

Some hair straighteners and curling irons have been equipped with an automatic shut-off feature. This feature has been designed to provide peace of mind. If left on, the appliance will automatically switch off after 60 min.
