RQ10/40

## Keep a close shave

Change heads every 2 years for best results

Every year, your blades travel the height of Mt. Everest ... 10 times! After such a workout, even the best materials can lose their edge. Retain your shaver's peak performance – Replace the heads once every 2 years.

### **Comfortably close**

- Super Lift & Cut shaving technology with dual blade system

### **Shaves even the shortest stubble**

- Precision Cutting System

### **A fast and close shave**

- Triple-Track shaving heads with 50% more shaving surface

### **Perfectly close, even on the neck**

- Flex & Pivot Action follows every curve

# Highlights

## Super Lift & Cut technology

Dual blade system of your Philips shaver: first blade lifts, second blade cuts for a comfortable close shave.

## Precision Cutting System

The Philips shaver has ultra thin heads with slots to shave long hairs and holes to shave the shortest stubble.

## Triple-Track shaving heads

The three shaving tracks of the Triple-Track shaving heads offer 50% more shaving surface than standard, single track rotary shaving heads.

## Flex & Pivot Action

Three independently flexing heads in a shaving unit that swivels with a full range of motion. This unique combination ensures optimum skin contact in curved areas to catch even the most problematic neck hair.

# Specifications

## Shaving heads

**Upgraded shaving heads:** RQ10 has been replaced by SH70

**Important:** If SH70 is also out of stock, unfortunately, there is no replacement available. SH71 is not compatible with SensoTouch or Arcitec shavers.

## Shaving unit
