#### Less Hair Damage

- Ceramic element to smooth your hair
- 4 x stronger Ion conditioning for ultimate shine

# PHILIPS

# Highlights

## Professional 2200W

This 2200W professional hairdryer creates a powerful airflow. The resulting combination of power and speed makes drying and styling your hair quicker and easier.

## Ion conditioning 4 x more

Give your hair an intensive boost with ionic conditioning. This hairdryer emits 4 x more negatively charged ions than other hairdryers. This ultimate stream of ions eliminate more static, condition the hair and smooth down the hair cuticles. The result is ultimate shiny, frizz-free hair. Let it shine!

## Ceramic element

The ceramic element is included to prevent overdrying. It issues infrared heat, which has a

gentle warmth which helps dries your hair from within and protects it from overdrying, without compromising on speed and effectiveness.

## Cool Shot

A must-have professional function for hair stylers. The Cool Shot button provides an intense burst of cold air. It is used after styling to finish and set the style.

## Volume diffuser

The volume diffuser dries hair healthily, reduces frizz and increases volume by spreading the airflow across the hair. It adds lift and maximises volume, especially when used on the crown and root area, making it perfect for creating curls and bouncy styles

## Narrow concentrator

The concentrator of the hair dryer works by focusing the flow of air through the opening onto specific areas. This results in precise styling and is great for touch ups or to finish a hair style.

## Easy storage hook

The rubberised hook is located at the base of the handle and provides another storage option, particularly convenient for use in the home or when staying at a hotel.

## 1.8 m cord

1.8 m power cord
