HX6631/13

Improves gum health up to 100%*

*more than manual brushing

Provides superior plaque removal and gum care in an easy-to-use power toothbrush to help prevent and reduce the early signs of gum disease while offering you the most comfortable brushing experience

Guides you to follow dentist recommendations

- Smartimer helps you meet recommended brushing time
- Quadpacer interval timer encourages thorough brushing

Improves gum health more vs. a manual toothbrush

- Better than a manual toothbrush for gingivitis
- Removes up to 6 X more plaque along the gumline
- Sonicare dynamic sonic action drives fluid between teeth

Offers a customised brushing experience

- Three intensity settings for a gentle experience

Recommended by dental professionals worldwide

- Proven to improve gum health in 3 ways
- Safe on orthodontics, dental work and veneers

Highlights

Improves gum health in 3 ways

Clinically proven to improve gum health in three ways: reduces redness, swelling and bleeding (sites)

Prevents and reduces gingivitis

With superior plaque removal along the gumline, this toothbrush can help reduce gingivitis up to 100% better than a manual toothbrush in just two weeks

Three intensity settings

With three customisable intensity settings (low, medium and high) you can select the right power level to ensure that brushing along the gumline is comfortable. After

1.5 seconds of brushing, you will have to push the button twice to switch modes — once to pause and again to switch.

Up to 6x better plaque removal

Removes up to 6 X more plaque along the gumline than a manual toothbrush.

Sonic technology

Our sonic technology creates a unique dynamic cleaning action that drives fluid deep between teeth and along the gumline for a thorough-yet-gentle clean

Safe and gentle

The gentle motion of this Philips Sonicare power toothbrush is safe for dental work, including orthodontics, implants and veneers, so you can brush without worrying.

Smartimer

This Philips Sonicare power toothbrush features a special Smartimer to help you meet the dentist-recommended brushing time of two minutes

Quadpacer

Features a Quadpacer interval timer to help encourage thorough brushing of the entire mouth. The toothbrush beeps every 30 seconds, signifying that it's time to move to another area of the mouth.
