Highlights

Vacuum system

Trim your beard, mustache and sideburns while keeping tidy with this trimmer. High-velocity motor and fan system creates powerful suction to lift and capture maximum hairs, leaving you with less mess to clean up.

Even trim, less strokes

Innovative lift & trim technology effectively lifts and guides hairs for a more efficient cut. Rounded contour comb technology is designed to deliver a skin friendly and more even trim.

Self-sharpening steel blades

The blades are designed to effectively cut each hair perfectly, preventing skin irritation. They are double sharpened to cut more hairs in every pass for faster trimming.

Built-in 20 length settings

Select your preferred trim length by simply turning the zoom wheel until the length you want is displayed from 0.5 - 10mm (1/32" to 13/32") with 0.5mm precision.

Corded and cordless use

Advanced lithium-ion battery delivers maximum power for high performance cutting. Charge your beard trimmer for 1 hour to get 80 minutes of cordless use. It can also be used while charging.

Battery indicators

The battery indicators in this trimmer let you know what your battery status is: Low, empty, charging or full. This way, you can charge your trimmer on time and fully, so you won't end up with an empty battery in the middle of your trim.

Precision trimming

When you are done trimming, just click on this precision trimmer to finish up your style with defining details and edges or trimming your moustache with clicking one of the precision combs (3 or 5mm) on the trimmer.

Easy to clean

Detach the head of your Philips beard trimmer and rinse it under the tap for easy cleaning. Then dry it before you put it back on the appliance.

Built to last

We back this Philips Norelco trimmer with a 5 year warranty offer. Simply register your trimmer on www.norelco.com/register to receive an additional 3 years from our previous warranty coverage plan giving you a 5-year worldwide warranty in total. Our grooming products are built to last. You'll never need to oil it, and it's compatible with all worldwide voltages.
