Cutting performance
- One pass, even trim

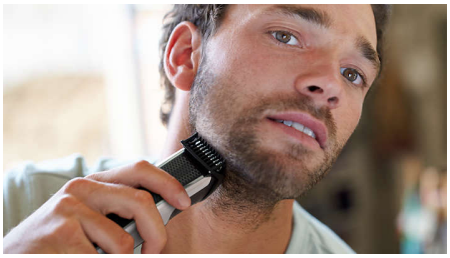
Even trimming results
- Trims evenly and captures low-lying hairs

Precision and control
- Adjusts to different length settings

Built to last
- Warranty for purchase protection

Highlights

One pass even trim



Never miss a spot again with the Philips Beardtrimmer Series 5000. Our inbuilt Lift&Trim system picks up low-lying hairs and rounded combs trim at an even length.

40 adjustable length settings for beard and hair

Cut to the exact length you're after with this cordless beard trimmer. Just spin the zoom wheel to one of 40 length settings in 1/128" (0.2mm) increments.

DualCut

Get a fast and even trim with Philips beard trimmer for men, with self-sharpening steel blades and 2x as many blades, thanks to DualCut.

Lift & Trim PRO system

Stubble doesn't stand a chance. The Lift&Trim Pro system captures all your low-lying hairs and lifts them up toward the blades for a precise cut – whilst still being an ideal trimmer for long beards too.

90 min corded/cordless use

Don't get tangled up in your stubble trimmer – a 1 hour charge provides up to 90 minutes of cordless grooming time. Or keep it plugged in for uninterrupted trimming. The 5 minute quick charge function gives you enough power for one trim.

2-year warranty

All of our grooming products are built to last. They come with a 2 year warranty, never need to be oiled and are compatible with any voltage worldwide.
