Highlights

Lift & Trim system

Perfect for stubble, the Philips beard trimmer features our new Lift & Trim system, featuring a comb that lifts and guides the hairs to the level of the blades for an even trim.

Self-sharpening blades

The self-sharpening steel blades on the Philips 3000 beard trimmer stay as sharp and effective as on day 1 to deliver a perfect yet protective trim, time after time.

Skin-friendly blades

Designed to prevent scratches and irritation, the blades have rounded tips for smoother skin contact.

Precision Dial - 20 settings

An effective beard trimmer that cuts to the exact length you're after. Just spin the zoom wheel to one of 20 length settings between 0.5 and 10 mm in 0.5 mm increments.

60 mins corded/cordless use

Don't get tangled up in your stubble trimmer – a 1 hour charge provides up to 60 minutes of cordless grooming time. Or keep it plugged in for uninterrupted trimming.

Battery indicators

The battery indicators in this trimmer let you know what your battery status is: Low, empty, charging or full. This way, you can fully charge your trimmer on time, so you won't end up with an empty battery in the middle of your trim.

Easy to clean

Detach the head of your Philips beard trimmer and rinse it under the tap for easy cleaning. Then dry it before you put it back on the appliance.

Ergonomic design

A fast trimmer that's comfortable to hold and use. So you can handle those hard-to-reach areas more easily.

Built to last

All of our grooming products are built to last. They come with a 2 year warranty, never need to be oiled and are compatible with any voltage worldwide.

Travel and storage pouch

The included travel pouch keeps everything together when you're at home, at the gym or on the go.
