Toothbrush for gentle cleaning of teeth and gum

Innovative technology delivers better results. Now there's a guaranteed way to better oral health. It's the new Philips Sonicare FlexCare electric toothbrush that adapts to your oral care needs.

Proven to improve oral health

- Improves gum health in just 2 weeks
- Remove up to 7x more plaque with our InterCare brush head*
- Safe and gentle for your oral health needs

Designed around you

- Easy start program builds your Philips Sonicare routine
- Timers encourage thorough 2 minutes of brushing

Provides a superior clean

- Angled neck to help tackle cleaning in tough areas
- Our unique technology brings you a powerful yet gentle clean

Highlights

Remove up to 7x more plaque

Click on our InterCare brush head to improve gum health in just 2 weeks. Extra-long bristles help remove more plaque in hard-to-reach spots and between teeth for healthy gums.

Look after those gums

With optimal cleaning from your FlexCare, gums will become healthier in 2 weeks. Removing up to 7x more plaque along the gum line than a manual toothbrush, you'll get your healthiest smile.

Ease into your new routine

Starting something new can take some getting used to. Our easy-start program gives you the option of a gradual, gentle increase in brushing power with the first 14 uses with your new toothbrush.

Brush with confidence

Whatever your specific needs, you can be sure of a safe brushing experience with the Flexcare. Our sonic technology is suitable for use with braces, fillings, crowns and veneers, and can even be used in the daily treatment of gum disease.

QuadPacer and Smartimer

It takes just 2 minutes to thoroughly brush your teeth. Our QuadPacer lets you know when you've spent the optimal amount of time on

each section of your mouth while our Smartimer signals when your total time is up. Together they help you reach your recommended brushing time, every time.

Reach those tricky spots

The unique shape of your FlexCare toothbrush handle combined with our brush heads means that even tricky spots like back teeth get a thorough clean.

Philips Sonicare technology

Powerful sonic vibrations whip up your toothpaste into plaque fighting bubbles, and drive them deep between your teeth and along your gum line. At the same time your teeth will experience 62,000 gentle but effective brush movements. You'll get a month's worth of manual brushing in just 2 minutes.
