# Highlights

### Perfect precision

With cutting lengths ranging from 1/64" to 13/32" (0.4mm to 10mm), you can get the exact trim you want. The length settings go up in precise 1/127", 1/32", and 3/64" (0.2mm, 0.5mm, and 1mm) steps in between – giving you perfect precision with control.

### 17 lock-in length settings

To select your preferred trim length, just turn the zoom wheel on the handle until the length you want is displayed. Your chosen length is now 'locked in' for a precise and even trim.

### Water-resistant

To clean, simply rinse the water-resistant trimmer under the tap.

### Perfect stubble every day

If you want that perfect stubble look, just use the trimmer's short 1/64" (0.4mm) setting. For a perfectly groomed longer beard, simply adjust the setting to the exact length you need.
