Revitalizing Massage

- It feels like 750 gentle finger taps per minute
- Developed with Japanese massage experts

3-step routine

- Step 1: Deep pore cleansing
- Step 2: Precision cleansing
- Step 3: Revitalizing Massage

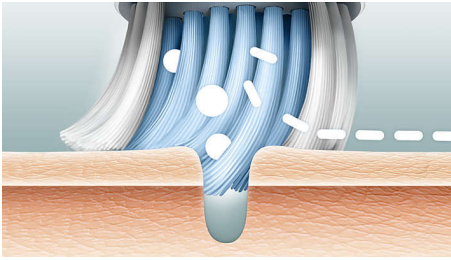

PHILIPS

Home Facial Device

Tailored DualMotion Technology Deep-pore, precision & massage, 3 heads, pouch, storage palette, 2 intensity settings

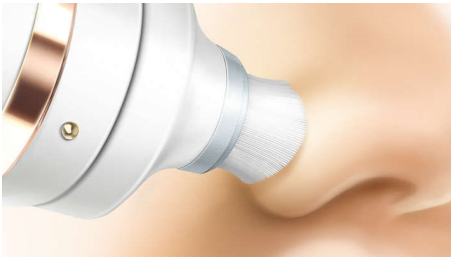

Highlights

Step 1: Deep pore cleansing

The deep pore brush helps to reduce the appearance of pores. Immediate results shown in 9 out of 10 of women.

Step 2: Precision cleansing

The precision brush is uniquely designed to reach and cleanse the hard to reach areas such as around the nose. It also has a customized program, with more intense rotations and a shorter treatment time dedicated to cleanse the nose area for pure and refined skin.

Step 3: Revitalizing Massage

Using the Revitalizing Massage head with its Customized DualMotion programme, you will increase the blood circulation and bring life into your skin. This brings out its natural radiance, leaving it looking revitalized and with a healthy glow.

Customized DualMotion

VisaPure Advanced is equipped with Customized DualMotion technology. Each head that comes with VisaPure will have specified levels of rotation and vibration. Both the handle and the new attachments are equipped with an innovative NFC tag that enables the advanced Intelligent Head Recognition. This means that the handle immediately recognizes the specific head once put on. In this way, you can enjoy dedicated programs of Customized DualMotion technology for different skincare benefits.

Deep Pore Brush Bristles

The deep pore brush comes with a unique combination of bristles of thicker and thinner bristles. The thin bristles reach the pores and cleanse them well, while the thicker bristles swipe away the dirt. The brush consists of 20,000 bristles smaller than the size of your pores, for a superior cleanse. An easy way to a clean and healthy looking skin without impurities.

SC5371/10

Increases absorption of creams

Cleansing with VisaPure means that you remove more make up residue, dead skin cells and dullness. Thanks to the deep cleansing effect, your favorite skincare products such as creams, serums and essences are better absorbed by the skin.

Relaxes the muscles

Thanks to the elegant and functional design of the head with its five small balls, it feels like 750 gentle finger tapping movements per minute. The Revitalizing Massage program lasts 3 minutes, and you can enjoy a facial massage several times a week.

Developed with massage experts

The Revitalizing massage head has been developed with experts in Japanese facial massage. The dedicated program of DualMotion is inspired by worldwide renowned massage techniques. The massage technique called Petrissage is known worldwide to deliver a deep level massage that stimulates blood circulation and relax the muscles, revealing ultimately radiant and revitalized skin.
