- Wattage: 2500 W
- Material housing: metallic chrome

Serviceability

- Replacement

HP4996/00

Highlights

1.8 m cord

1.8 m power cord

Narrow concentrator

The concentrator works by focusing the flow of air through the opening onto specific areas. This results in precise styling and is great for touch ups or to finish a style.

Ionic Care

Ionic conditioning enables anti-static drying. Charged negative ions eliminate static hair, condition the hair and smooth down the hair cuticles to intensify the hair's shine and glossiness. The result is smooth and frizz-free hair that shines beautifully.
