Highlights

Starry night light projector

Your baby may still be restless when you first put them to bed. Help soothe and calm your baby to sleep with the starry night light projection which can be activated from the parent or baby unit. (Remote activation not available in US and Canada).

Night light with MP3 plug

Gently calm your baby with your own selected song and a warm tranquil glow of the night light. With MP3 plug and play you can play your own selected songs. Your personal music in the baby room helping your baby drift to sleep in no time. (Remote activation not available in US and Canada).

Zero interference with DECT

DECT technology guarantees zero interference from any other transmitting product like other baby monitors, cordless phones and cell phones. Data encryption provides a secure and private connection, so you can be sure that you are the only one that can hear your baby.

Perfect clear sound

Hear every tiny giggle, gurgle, and hic-up with perfect clarity. DECT (Digital Enhanced Cordless Telecommunications) technology provides high quality, crystal clear sound so you can hear your baby anytime.

Smart ECO mode

The unique Smart ECO mode automatically minimizes your transmission power and increases your battery lifetime. The closer you are to your baby, the less power is needed for a perfect connection (not available in US and Canada).

Sound activation 5 LED lights

Lights are activated to indicate the level of sound in your baby's room. Even when the Parent Unit is muted.

Always connected

The parent unit will alert you when your monitor is out of range or when the power is low, helping you make sure that you are always connected to your baby.

Temperature & humidity sensor

Combined humidity and temperature sensor allows you to monitor the climate in your baby's room. Your baby can't regulate its body

temperature as well as you can and a slight change in temperature, and too much or too little humidity can make your baby restless. A specially combined humidity and temperature sensor will immediately alert you, through the digital display on the parent unit, if the climate in your baby's room changes. Monitor the complete climate in baby's room.

330m Range

Indoor range up to 50 meters*. Outdoor range up to 330 meters*.

Operating time up to 18 hours

The small, rechargeable parent unit will give you the freedom of cordless streaming for up to 18 hours before re-charging is required.

Vibration alert

Personalize your alert settings and get notified by a silent and subtle vibration of the parent unit.

Peaceful night mode

Press the night dim button to instantly activate the peaceful night mode. In this mode the light intensity of the lights, display as well as the volume of the alerts are reduced. Easily press the night dim button again in order to switch back to normal operating mode.
