Philips Series 2000
Air humidifier

Humidifies rooms up to 25 m²

220 ml/h humidification rate
Up to 99% less bacteria
Automatic humidity settings

HU4803/01

Breathe easily, sleep peacefully

Humidifies dry air and adjusts automatically

Fill your home with comfortable, clean air. NanoCloud technology humidifies with no white dust or wet spots, and up to 99% less bacteria (1). Smart sensors and even air distribution deliver ideal humidity throughout your room.

Seamless operation
• Automatic humidification with 3 settings

Superior performance
• Even, effective circulation throughout your room

Superior performance
• Effective in rooms up to 25 m2 (3)

Effortless control
• Sleep mode for quiet nights

Seamless operation
• Safe, effective and completely natural (5)

PHILIPS

Air humidifier
Humidifies rooms up to 25 m² 220 ml/h humidification rate, Up to 99% less bacteria, Automatic humidity settings

Highlights

Moist air, evenly distributed

A 360-degree diffuser distributes humidified air evenly throughout the whole room. Ultra-fine NanoCloud vapour carries further and prevents over-saturation for effective humidification, particularly in larger rooms.

Effective humidification

3 fan speeds and automatic settings deliver the performance and comfort you choose. With an output of up to 220 ml/h, it effectively humidifies any room up to 25 m2. (2,3)
No white dust or wet floors

NanoCloud's invisible mist does not release white dust or leave wet patches in your room (4). Larger droplets emitted by ultrasonic humidifiers may dampen the surroundings and carry minerals that leave white residue on nearby surfaces. NanoCloud particles are too small to carry minerals, effectively preventing residue and stains.

Safe and effective

NanoCloud technology uses natural evaporation, widely recognised as a hygienically safe and effective method of humidification. No ions, chemicals or ozone are used (5) and no water is heated, so there is no risk of burns.

NanoCloud Technology

Unique NanoCloud technology uses natural evaporation to emit pure water vapour. NanoCloud's ultra-fine mist is invisible to the naked eye and extremely difficult for bacteria or residue to attach to — humidifying the air with up to 99% less bacteria released than standard ultrasonic humidifiers. (1)

Automatic humidification

A smart humidity sensor monitors the air and automatically adjusts to keep humidity at your preferred level: 40%, 50% or 60%. A water level alert lets you know when to refill the tank, and the humidifier automatically switches itself off when it runs out of water.

Real-time feedback

A digital display reports humidity in real-time with additional indicators for water level, timer and mode.

Ease of use

A large water tank provides hours of nonstop humidification. Refilling is as simple as lifting off the top. Easy-to-clean design helps keep the humidifier and the air in your home clean and hygienic.

Quiet sleep mode

Sleep mode minimises noise levels to work quietly and efficiently through the night.

Air humidifier

Humidifies rooms up to 25 m² 220 ml/h humidification rate, Up to 99% less bacteria, Automatic humidity settings

Specifications

Design specifications
- Colour(s): White and Oyster metallic
- Product dimensions (W x D x H): 249*249*339 mm

Technical specifications
- Voltage: 220-240 V
- Recommended room size: 25 m²
- Water tank capacity: 2 L
- Noise level: as low as 26 dB in silent mode dB
- Operation time: 8 hour(s)
- Air quality sensor(s): Humidity sensor
- Humidification capacity: 220 ml/h

Weight and dimensions
- Dimensions of product (LxWxH): 249*249*339 mm
- Dimension of packaging (L x W x H): 310*310*405 mm
- Weight of product: 3.05 kg
- Weight incl. packaging: 4.33 kg
- Colour(s): White and Oyster Metallic
- Water tank: 2 L

Service
- 2-year worldwide guarantee

Replacement
- Humidification filter: Replace FY2401 once every 6 months

Usability
- Modes: Automatic and Sleep
- Manual speed settings: 1, 2, 3
- Humidity settings: 40%, 50%, 60%
- Cord length: 1.8 m
- Timer: 1, 4, 8 hour(s)
- Water tank autonomy time (6): 13 hours

Energy efficiency
- Stand-by power consumption: < 0.5 W
- Voltage: 220-240 V
- Max. power consumption: 19 W

Replacement filters
- Humidifier Wick: FY2401 - Up to 6 months

Performance
- Humidity rate (2): 220 ml/h
- Humidification room size (3): Up to 25 m2
- Air quality feedback: Numerical
- Humidity sensor
- NanoCloud technology (1): Up to 99% less bacteria
