# Highlights

## 1100 W

This 1100 W hairdryer creates the optimum level of airflow and gentle drying power, for beautiful results every day.

## Three flexible settings

The speed and heat required can be easily adjusted to create the perfect end result. Three flexible settings ensure precise and tailored styling.

## Narrow concentrator

The concentrator of the hair dryer works by focusing the flow of air through the opening onto specific areas. This results in precise styling and is great for touch-ups or to finish a hair style.

## Cold air setting

A cold air setting is a low heat setting that gently dries the hair to minimise damage. This function is suitable for all hair types, but especially for fine, dry or damaged hair. It is a perfect setting for the hot summer season!

## Foldable handle

This hairdryer benefits from a foldable handle. The result is a small, compact hairdryer that will easily pack into the smallest spaces and that you can take virtually anywhere.

## Easy storage hook

The rubberised hook is located at the base of the handle and provides another storage option, particularly convenient for use in the home or when staying at a hotel.
