Fresh skin

- Cooling effect: skin cools down for up to 8 mins

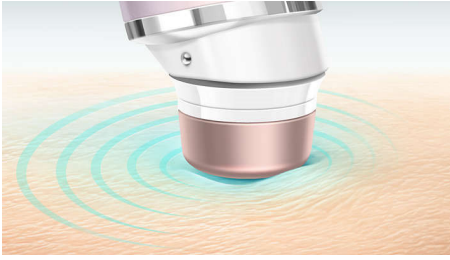

PHILIPS

Fresh Skin Attachment

Refreshing skin boost Cools skin down, up to 8 mins, For daily use, Easy to clean

Highlights

Cooling effect

Immediately after using the Fresh Skin head, a decrease in skin temperature is visible with a heat camera. The difference in temperature can be observed for up to 8 minutes after usage.

A refreshed face in 40 seconds

The customized DualMotion programme gives a refreshed face in just 40 seconds. Choose from 2 intensity settings. Setting 1 offers light tapping with vibration only while Setting 2 is a slightly higher intensity programme with vibration and rotation.

Special shape and material

The attachment's flat shape, mimics the shape of the palm of a hand and is designed to simulate the gentle tapping movements simulating finger tapping movements used in traditional massage at the end of a treatment to give tired skin a refreshing boost. Added to that, the ceramic coating ensures the attachment glides smoothly across the skin.

Easy in your routine

Easy to include as part of your skincare routine. The attachment can be used by itself or together with your current skincare products, such as creams, serums, oils and essences etc.

Easy to clean

The Head is easy to clean. Simply clean it in the sink with warm water and soap.
